Achievements...

- Facilitating the development and growth of SAF industry
- Creating a platform of robust collaborations throughout the entire SAF value chain including civil and military aviation
- Working collaboratively with international partners, including CAAFI under the U.S. Australia MOU signed in Sep 2011
- Joining forces with Aviation Aerospace Australia August 2013

...Next Steps

- Trials and use of small scale SAF production volumes (such as supporting the "Great Green Fleet" initiative of the U.S. Navy in collaboration with the Royal Australian Navy in 2016)
- Demonstration Plant: First production of commercial grade SAF by 2017-8
- Commercial Plants: Commence construction of 2 plants in Australia by the end of 2020
